GOCC enrichment_HU
actin filament
cell division site
actin cortical patch
endosome membrane
mitotic spindle pole body
eukaryotic 48S preinitiation complex
eukaryotic translation initiation factor 3 complex
eukaryotic 43S preinitiation complex
mating projection tip
spindle
DNA replication preinitiation complex
trans−Golgi network
fungal−type vacuole membrane
Golgi apparatus
intracellular anatomical structure
cytosol
mediator complex
cytoskeleton
phagophore assembly site membrane
spindle pole body
